Courses of Instruction.

AS REVISED DEC. 11, 1894.

Four Courses of Instruction are provided for, as follows :

Elementary Course.

Regular Normal Course.

Scientific Course.

Advanced Normal Course.

ELEMENTARY COURSE.

PREPARATORY STUDIES.

Language :—Orthography, Reading.

Natural Science :—Physiology and Hygiene.

Historical Science :—Geography, Political and Physical :
History of the United States.

The Arts :—Penmanship, sufficient to be able to explain some approved system ; writing to be submitted to the Board of Examiners.

The “final” examination in these branches shall be deferred till the end of the Junior year.

JUNIOR YEAR.

Pedagogics :—School Management ; Method of teaching the Common Branches.

Language :—English Grammar ; Latin, sufficient for the introduction of Cæsar.

Mathematics :—Arithmetic, Elementary Algebra.

Natural Science :—Botany.

Historical Science :—Civil Government.

The Arts :—Drawing, a daily exercise for at least twenty-four weeks, work to be submitted to the Board of Examiners ; Book-keeping, single entry, including a knowledge of common business papers and a daily exercise for at least seven weeks : Vocal Music, elementary principles, and attendance upon daily exercises for at least twelve weeks.

Physical Culture.

SENIOR YEAR.

Pedagogics :—Psychology ; Methods of teaching the Common Branches ; History of Education ; Model School Work, at least twenty weeks of actual teaching daily during one period of not less than forty-five minutes ; a Thesis on a professional subject.

Language :—Rhetoric and Composition ; English Literature, at least twelve weeks' work, including the thorough study of four English classics ; Latin, Cæsar, through the Helvetian War.

Mathematics :—Plane Geometry.

Natural Science :—Elementary Natural Philosophy.

Historical Science :—General History.

The Arts :—Elocutionary exercises in connection with the study of English Literature ; Manual Training.

Physical Culture.

REGULAR NORMAL COURSE, Three Years.

(This course includes the studies of the Elementary Course, and the following branches : A full equivalent will be accepted for any of the text-books named in this Course.)

Pedagogics : Advanced Psychology ; Moral Science ; Philosophy of Education ; Methods of Teaching ; Practice of Teaching ; Pedagogical Works ; Frœbel, Education of Man ; Quick, Educational Reformers ; Fitch, Lectures on Teaching ; School Supervision, School Apparatus ; Discussion of Manual Training, Physical Culture, etc.

Mathematics : Solid Geometry ; Plane and Analytical Trigonometry ; Surveying.

Language :—Latin, Cæsar, 3 books, Vergil's *Æneid*, 3 books ; Cicero, 3 orations.

Natural Science :—Chemistry, including Chemistry of Soils ; Zoology, including Entomology ; Geology.

Literature :—Higher Literature, English and American, including a study of at least four classics.

SCIENTIFIC COURSE, Four Years.

(This course includes the study of the Regular Normal Course, and the following branches :)

Pedagogics :—Logic ; Course of Professional Reading selected from Regular or Advanced Normal Course ; a Thesis on a professional subject.

Language :—Latin, 3 books of Vergil's *Æneid* ; 3 orations of Cicero, or a full equivalent ; (an equivalent of Greek, German or French will be accepted for any of the following studies : Vergil, Cicero, Higher Algebra, Spherical Trigonometry, Surveying, Analytical Geometry, Calculus, Mathematical Natural Philosophy, and Mathematical Astronomy. An equivalent of Latin and advanced work in Natural Science will be accepted for any of the foregoing mathematical studies.)

Mathematics :—Higher Algebra ; Spherical Trigonometry and Surveying, with use of instruments ; Analytical Geometry ; Differential and Integral Calculus.

Natural Science :—Higher Natural Philosophy ; Astronomy, Descriptive and Mathematical.

Historical Science :—English History ; Grecian History : Roman History.

ADVANCED NORMAL COURSE, Five Years.

(This course includes the studies of the Scientific Course, and one year's additional work in Pedagogics, as follows : A full equivalent will be accepted for any of the text-books in the Course.)

Psychology :—James, Advanced Course.

Laurie's Institutes of Education ; Rein's Outline of Pedagogy ; Herbart's Science of Education ; Spencer's Education ; Rosmini's Method in Education ; Davidson's Education of the Greek People.

Discussion of Methods and objects of leading Educators ; Frœbel, Pestalozzi ; Dr. Arnold, Horace Mann and others.

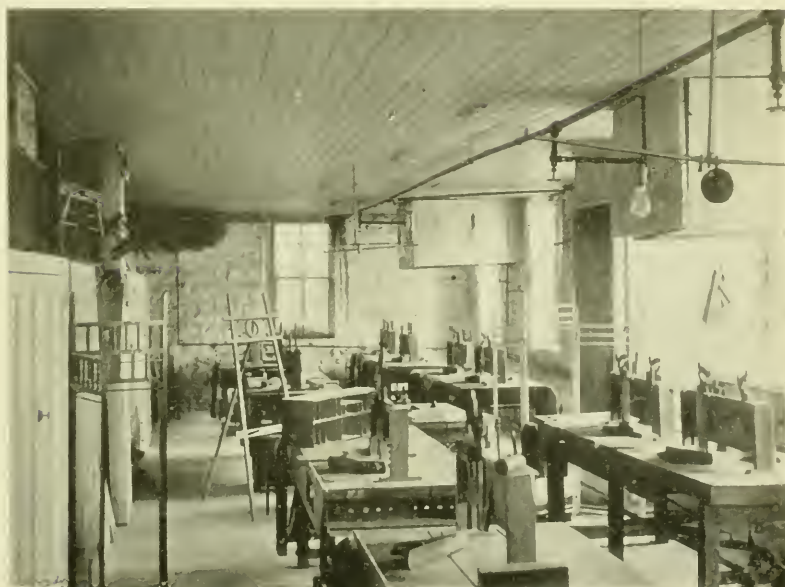

Discussion of Educational Theories.

Education in the United States ; Education in Pennsylvania (Wickersham) ; General Survey of History of Public Education in Germany, France and England.

Advanced work in Language, Mathematics, Natural Science, etc., may be taken at the option of the student.

A CORNER IN DEPARTMENT OF SCIENCE.

MANUAL TRAINING ROOM.

Rules for Final Examinations

AND ADMISSION TO THE JUNIOR AND SENIOR CLASSES IN ELEMENTARY COURSE.

1. Admission to the Senior Class shall be determined by the State Board of Examiners at the annual examination.
2. In order to be admitted to the Senior Class, persons must be examined in all the Junior studies, except methods, and the examination in these branches shall be final. No substitutions or conditions shall be allowed for any of the studies required for admission to the Senior class.
3. If the faculty of any State Normal School, or the State Board of Examiners, decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examination at any other State Normal School during the same school year.
4. If a person, who has completed the Junior studies at any State Normal School, desires to enter another State Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the fact of the passing of the Junior studies shall be issued.
5. Candidates for graduation shall be examined in all the branches of the Senior year. They shall have the opportunity of being examined in any of the higher branches, including vocal and instrumental music, and double entry book-keeping; and all studies completed by them shall be named in their certificate.
6. Persons who have been graduated in any Course may be examined at any State examination in any branches of a higher course, and the Secretary of the Board of Examiners shall certify, on the back of their diplomas, to the passing of branches completed at said examination.
7. A certificate setting forth the proficiency of all the applicants in all the studies in which they desire to be examined by the

State Board of Examiners, shall be prepared and signed by the Faculty, and presented to the Board.

8. For Graduation—No one can be graduated from a State Normal School in Pennsylvania, who has not attended at least half a school year, and who has not been examined by the Faculty and recommended to the State Committee. A thesis of not less than six folio pages of manuscript upon some educational subject is required as part of the examination. Especial importance is attached to the work done in the Model School, which must be continued until a good degree of skill has been attained.

Certificate and Diploma.

The State Normal Certificate is issued to those who are graduated. It entitles them to teach in the public schools of the State for two years without further examination. *The State Normal Diploma* is issued to graduates who have taught in the common schools of the State for two full annual school terms of not less than six months each after graduation, and who present certificates of successful teaching from each of the school boards, countersigned by the County, City or Borough Superintendent.

Examination of Practical Teachers.

The Normal School law makes it the duty of the State Board of Examiners to grant Diplomas or State Certificates to actual teachers of common schools, without their having attended the Normal Schools as Students, upon the following conditions :

1. The applicant must be twenty-one years of age, of good moral character, and must have taught successfully in the common schools of this State during three consecutive annual terms immediately preceeding the examination. The proof of good moral character and satisfactory teaching for the required time, must be a certificate from the proper Board or Boards of Directors, signed by the President and Secretary and countersigned by the proper Superintendent or Superintendents.

2. The examination may be in either the Elementary or the Scientific Course, as the applicant may elect, according to the list of studies as printed in the circulars of the State Normal Schools and approved by the State Superintendent, or in such other studies as may, by the Board of Examiners, be deemed equivalent.

3. Each applicant is required to prepare and present to the State Board of Examiners an original thesis of not less than six folio pages of manuscript, on some professional subject, which thesis is to be retained at the school where the examination takes place.

4. The examination and certificate are without expense to the applicant, and the certificate is full evidence of qualification to teach the branches therein named, in any part of the State without further examination.

5. Practical teachers, attending examinations at the State Normal Schools for the purpose of procuring State Certificates, are examined separately from the regular students, and both the State Board of Examiners and the faculty of the School at which the examination is held, take part in the examination, all being required to sign the certificate.

Elementary Course of Study as Arranged for this Institution.

The object of the Elementary Course is to prepare teachers for common school work. It includes a preparation in the common branches, and in other subjects closely related to them. It also includes professional training—theoretical and practical. The theoretical embraces Psychology, History of Education, School Management and Methods of Teaching. The practical requires at least twenty week's teaching in the training department.

PREPARATORY.

F	E	D
Reading, Writing, Language, Drawing, Spelling, Arithmetic, Geography.	Elocution, Drawing, Language, Arithmetic, Geography, History.	Orthography, Reading, Physiology & Hygiene, Grammar, Composition, Arithmetic, Geography, Physical, History, Penmanship.

JUNIOR.

C	B	A
Drawing, 24 weeks, School Management, Book-keeping, $\frac{1}{2}$ Composition, Algebra, Latin.	Elocution, History of Education, Civil Government, Arithmetic, Algebra, Grammar, Latin.	Vocal Music, Methods, Arithmetic, Composition, Botany, Algebra, Elementary Science, Latin.

SENIOR.

FALL.	WINTER.	SPRING.
Psychology, $\frac{1}{2}$ Methods, General History, Rhetoric, Geometry, Manual Training, Physics.	Methods, Psychology, English Classics, Geometry, Physics.	Solid Geometry, Plane Trigonometry, Cryptogamic Botany, } Optional Literature, History of Education, Manual Training, Cæsar.

Practice in Teaching, at least twenty weeks.

Model School Course.

This comprises the following branches: Reading, Spelling, Writing, Arithmetic, Geography, History, Plant and Animal Lessons, Language, Form and Drawing, Vocal Music, Occupation of Kindergarten, Manual Training.

These are outlined in eight grades, corresponding in division to most approved city grading.

Manual Training.

Since Manual Training is rapidly becoming one of the regular subjects of the common school curriculum, it is the effort of this department to impart a knowledge of the subject sufficient to make our graduates competent instructors.

One-half term is devoted to making a few simple joints and useful objects involving the use of the common carpentry tools.

During the remaining term and a half of required time the student takes up the study of courses in thin wood (slip work), chip carving, whittling and wood carving. Having completed a given amount of work he may specialize along any of the above-mentioned lines, or he may turn his attention to the making of some project. Particular attention is given to the matter of original design, and each student presents a number of designs which, when they are approved, he proceeds to execute. The educational value of the subject is constantly kept in mind. Upon this as a foundation principle models are grouped to form courses, and courses already outlined are analyzed.

Musical Course.

MISS MARY MACMARTIN.

CHARLOTTE CLARK.

PROF. J. LISLE APPLE.

We wish to call attention to the advantages gained by coming to Indiana for the study of the art of music.

After graduating here a pupil can finish in one or two years the course of any conservatory in the country, and thus save money.

The best methods of instruction are used, and great care is taken to cultivate the musical taste of each pupil.

There is another advantage in the opportunity the pupil has to study other subjects. A musical education alone does not give the culture demanded at the present day.

For terms, see "Expenses at Indiana."

Piano.

FIRST YEAR.

Selections from the following:—Mason Technic, Mathews' Graded Course I and II, Duvernoy op. 176, Kohler, op. 190, Streabbog op. 63, Bertini op. 100, Czerny op. 849, Clementi Sonatinas op. 36, Beethoven, two sonatinas, Pieces by Lichner, Reinecke, Gurlitt, Hackh, Weiss, etc.

SECOND YEAR.

Selections from the following:—Mason, Mathews, Duvernoy op. 120, Berens op. 61, Le Couppey op. 20, Haberbier Daily Studies, Loeschhorn op. 52, Handrock Sonatinas, Beethoven, op. 49, I and II Bach Twelve Little Preludes, easier sonatas of Clementi, Haydn, and Mozart, Pieces by Dussek, Schmoll, Stiehl, Merkel, Bohm, Lange, C. B. Klein, Löw, etc.

THIRD YEAR.

Selections from the following:—Haberbier Daily Studies, Krause op. 4, op. 9, Heller, op. 46, Bertini op. 29, Schytte op. 90, Hasert op. 50; Ten studies of Cramer, Bach Two Voice Inventions, Sonatas of Hummel, Mozart, Haydn, Beethoven op. 14, No. 2, op. 2, No. 1. Pieces by Mendelssohn, Handel, Henselt, Godard, Greig, Jensen, B. C. Klein, Moszkowski, Scharwenka, Chaminade, etc.

FOURTH YEAR.

Bertini op. 32, Hasert op. 50, Heller op. 16, Cramer continued, Clementi Gradus Ten Studies, Mozart Sonatas, Beethoven, op. 13, op. 10, No. 1, op. 10, No. 2. Pieces by Schubert, Mendelssohn, Rubenstein, Moszkowsky, Chopin, Schumann, Rheinberger, Gade, Nicode, Mac Dowell, etc.

During the course one year in Harmony is required; also two years, weekly classes, in Musical History, Biography and Form. Both class and private lessons are given in Harmony.

Vocal.

FIRST YEAR.

1—Concone 50 Lecons; parts 1st and 2d. 2—Concone 25 Lecons. 3—Technical Studies from Bonaldi and Marchesi. 4—Special attention given to the formation of tone and breathing.

SECOND YEAR.

1—Exercise from Panofka and Bordogni with a continuation of the major and minor scale. 2—Staccato and Legato Singing.

THIRD YEAR.

1—Exercise of Bardomen. 2—Study of the oratorio. 3—German and Italian Songs, 4—Advanced Technical Studies given to produce various timbre of the voice.

The method is the old Italian method. That the tones may be taken with ease, there must be a thorough development and training of the organs which produce them.

Departments.

Professional Department.

D. J. WALLER, JR.

EDITH MANSFIELD.

JANE E. LEONARD, M. S.

HOPE STEWART, M. E.

ALICE MARY CLARKE.

MALVINA G. RIDDLE, M. E.

Trades and professions are distinguished by skill and proficiency in definite lines of work. These are acquired only by thorough training. The lawyer, the physician and the minister each prepares for his work by a special course of training. The business of the country is carried on by those who by special training have been moulded to fit the places they fill. If teaching is to be a profession, and no one now doubts it, those who succeed in the calling must make a special preparation for it. Normal Schools are established for the express purpose of giving this professional training.

The Academic Work is outlined with a view to the needs of the elementary teacher. Each branch is studied from the teacher's standpoint.

The pedagogical work includes :

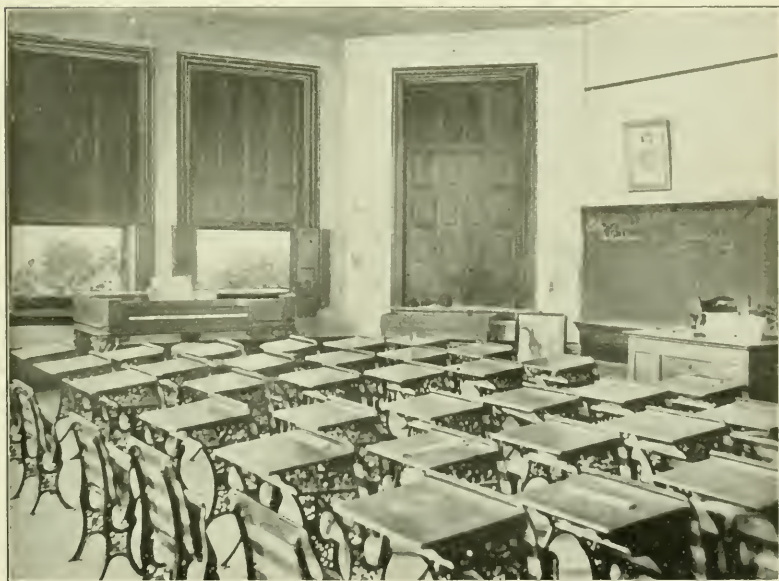

I. Theory of Teaching.

II. History of Education.

III. Practice of Teaching. This means the teaching of classes in the Model School, a school composed of eight grades of such pupils as are ordinarily found in graded public schools. The students first observe the teaching of expert teachers for one term, after which they take charge of classes for whose progress they are held responsible. All the work is under the supervision of four efficient training teachers. To this feature of our work we give special prominence. In order to receive a diploma from this school, the student must do practice work of high character.

CAMPUS.

THIRD AND FOURTH GRADES, MODEL SCHOOL.

English Department.

JANE E. LEONARD, M. S.

MELISSA M. MCBRIDE, M. S.

NELLIE M. GORDON, A. B.

F LANGUAGE.

Review of sentence. Teaching of Participle and Infinitive. Analysis of Simple Sentences. Exercises in naming the Parts of Speech. Original sentences required and much application given.

With these lessons, Reproductions and Original Compositions on subjects within the range of the student's personal observation and experience are required.

E LANGUAGE.

Teaching of Complex Sentences; also of Compound. A thorough study of the Clause Element. Constant practice in Sentence-Building. In this practice, sentences that increase the power to get and give meaning are required.

Composition work aims to give facility and pleasure in writing comparatively large amounts.

D GRAMMAR.

Discussion of the elements of written and of spoken language. Technical study of each part of speech with application of its syntax. Work in parsing and in the analysis of difficult sentences and construction.

Text-book, Welsh's Grammar.

B GRAMMAR.

Work designed for advanced pupils and for teachers. Review of Technical Grammar. Special study of Mode and Tense, and of the Participle and Infinitive. Analysis of involved and idiomatic constructions. Parsing of words in peculiar uses. Teaching takes account of spoken forms and historical relations. Suggestions as to methods of teaching language. The study of text with hand-books of Grammar for reference only.

D COMPOSITION.

Principles of expression; the more common figures of speech;

letter writing ; paraphrasing and the use of synonyms ; abstract ; amplification ; brief original compositions, mainly narrative and descriptive.

Junior Year.

C COMPOSITION.

Discussion of title, subject and theme of composition ; phraseology ; diction ; special qualities of style ; full discussion of figures of speech ; composition on descriptive and abstract subjects.

A COMPOSITION.

Organization of material. Special attention is given to the determination of the theme, and the construction of the plan of discourse.

A brief history of the English language ; the laws of Description, Narration, Exposition and Argumentation are studied.

Formal and informal essays, and outlines of debates based on the inductive and deductive methods of reasoning are required. Each candidate for Junior gives an essay in public during the year.

In every composition class a judicious use of Classics is made for the purpose of acquainting the student with the works of the best writers of English. Conversational English is made a test of scholarship. Punctuation begins with the first sentence written, and is kept up continually.

The paragraph is the unit of written discourse. Much stress, therefore, is laid upon the function of the paragraph—what it is, and how it should be constructed. The conception of paragraph unity and sequence is learned from the study of good concrete examples.

Senior Year.

A critical study and interpretation of at least four standard English writers are made during the second term of this year. An attempt is made to make the English a valuable mental discipline by leading the student to discover for himself from models of good writing what constitutes clearness, purity, strength, or felicity of style. Through the year his own writing is kept up ;

thus he is given actual practice in subduing the detailed requisites of expression until they become ready servants of his own thought.

During the last term the class studies biographies of representative authors who have contributed to the historical development of our language, with the best criticism upon these authors, and the best passages from their works.

Mathematical Department.

WALTER MITCHELL, PH. D.

M. C. GORDON, M. S.

WILL GRANT CHAMBERS, M. S., A. M.

ARITHMETIC.

The work in Arithmetic is divided into five classes, suited to the varied degrees of advancement of those who enter. In order to enter one of the higher grades, the student must pass satisfactory examination in the work of each lower grade.

The work of the grades is as follows :

F Grade. Fundamental Rules, Elementary Work in Common and Decimal Fractions ; Denominate Numbers and Measurements.

E Grade. Practical Problems in G. C. D. and L. C. M., Common and Decimal Fractions ; Denominate Numbers and Measurements ; Analysis ; Simple Interest ; Discount, Longitude and Time.

D Grade. Percentage and Application ; Square and Cube Root.

B Grade. Complete Arithmetic to Percentage. (Mental Arithmetic half term.)

A Grade. Complete Arithmetic.

ALGEBRA.

Two courses in Algebra are prescribed : 1, that required in the Elementary Course of study ; 2, that required in the Scientific Course of study.

The elementary course completes the topics usually taught in Elementary Algebra.

The C grade gives a primary course, embracing the subject

to radicals. It is its purpose to lay the foundation for a more philosophical treatment of the same and subsequent topics in the more advanced grades. It aims (1) to be an easy transition from the notation of common arithmetic to the literal notation of algebra by the inductive method; (2) to develop the subject with sufficient fulness to be a practical course in itself; to introduce enough sight drills and practical problems to insure ease and accuracy in methods of operation.

Elementary Algebra is completed in the B and A Grades. The work is as follows:

B Grade—All topics as far as Quadratic Equations.

A Grade—Quadratics, Ratio, Proportion, Series and Logarithms.

Thoroughness is demanded at each step. Students are required to discuss topics, to state principles and definitions in good language, and to demonstrate and illustrate the most important propositions. The entire course aims at the development of the reasoning powers, rather than at mere training in methods of operation.

The work required in the Scientific Course is substantially the same as that outlined in Wells' College Algebra.

GEOMETRY.

The work required in the Elementary Course covers the ground outlined in Wentworth's Plane Geometry.

A substantial part of the class work consists in demonstrating original exercises. Special attention is given to accuracy of statement in demonstrations. The aim is to develop clear and rigorous reasoning.

One term's work is required in Solid Geometry and Conic Sections in the Scientific Course.

TRIGONOMETRY AND SURVEYING.

These subjects constitute one term's work in the Scientific Course. The modern methods of treating these subjects are used. The latter part of the term is devoted almost entirely to field work and the use of surveyor's instruments.

The Senior year's work in Mathematics of the Scientific Course consists of three terms. The subjects taken up are Analytical Geometry, Differential and Integral Calculus and Spherical Trigonometry. One term is devoted to each.

Geographical and Historical Department.

ELIZABETH G. PEABODY.

W. G. ROBERTSON, A. B.

A. M. HAMMERS.

Geography and History are taught in their relation to each other. It is a study of man in his home. In geographic teaching the aim is to build up in the mind of the pupil clear notions of the earth as the home of man, clear notions of the objects of nature, of the forces of nature, of man, and the relations of the earth, force and man to society. Historic teaching is building up in the mind of pupils clear pictures or notions of the deeds of man—not only deeds in reference to time and place, but in their relation to each other.

Teaching these subjects from such a standpoint results in development of thought power, in culture and in practical information. There is not a power of the mind that is not strengthened.

There are three classes in History and Government :

E Grade—To the Civil War.

D Grade—Civil War.

B Grade—Civil Government.

There are three classes in Geography :

F Grade—Detailed study of North America.

E Grade—Detailed study of South America, Europe, Asia, Africa and Oceanica.

D Grade—Physical Geography. See Science Department.

Science Department.

C. B. ROBERTSON, A. M.

A. F. CARTER, M. S.

It is the object of this department to secure to the pupil the distinctive advantages which result from correct science study. These we believe to be the power to observe quickly, clearly and comprehensively, and the ability to deduce legitimate conclusions from the observations thus made. With these ends in view, it is the aim never to tell the pupil what he can find out for himself by observation or experiment. Beginning with

PHYSIOLOGY

the student is taught the principal facts of his own anatomy, to-

gether with the function of his organs and the circumstances most favorable to their proper action. The teaching is enforced here by means of skeletons, both human and lower mammalian, by microscopic slides, by lantern projections and by the actual dissection of portions of some lower mammal. The student is now ready to begin

PHYSICAL GEOGRAPHY.

In this work, taking for granted a knowledge of general political and descriptive geography, our great aim is to impart broad ideas of the structure of the globe, and the relation of each part to the whole, and after working down to the details, to return again and end with the whole globe.

In addition to the general work the thorough "intensive" study of a single continent is pursued.

ELEMENTARY SCIENCE.

The work in this branch is intended to teach the pupil how to study nature, and what facts are best adapted to be used in science work with pupils in the lower grades of our public schools. No attempt at classified Botany, Zoology, or Mineralogy is made or desired. The pupils, seated about work tables, examine, compare and describe the specimen placed in their hands. They are taught to see accurately, and to infer habit from structure. Those who wish to do so may substitute Elementary Chemistry for this branch.

BOTANY.

Here an amount of text-book work sufficient to acquire the necessary technical terms is demanded. But the greater part of the work consists in a close study of the types of the most important orders. Special attention is paid to structure and function as affected by environment, and to the inter-relations of the animal and the plant worlds.

In the senior year the study of

PHYSICS

is taken up. By this time considerable observational power and fair maturity of mind may be presupposed. Accordingly the aim is not so restricted as before. The endeavor is made to have each deduction founded on a larger number and broader range of ex-

periments, and to determine in many cases, not only the general law, but to decide quantitatively the exact result, and the extent of the limitations by surrounding circumstances.

In the Scientific Course all work is individual. Each pupil does everything himself under the supervision of the teacher. In

ZOOLOGY

each pupil makes his own dissections, mounts his own microscope slides, and prepares his own mounted specimens. In

ADVANCED CHEMISTRY

each pupil has his own stall ; with its equipment of apparatus and reagents, he conducts each experiment for himself. The work here is chiefly analytical, and such attention is paid to blow-piping as prepares the pupil for determinative Minerology as a part of the study of

GEOLOGY

which is carried out on the same lines as have been already indicated—much field work being required.

The Science Department is provided with an outfit of excellent apparatus. Our equipment now includes many pieces of great value, and is continually being increased. The Laboratory has been completely refurnished. Work tables with room for each pupil have been introduced, and lecture chairs with tablet arms have replaced the benches. In

ADVANCED BOTANY

each student works at a table with a compound microscope and the reagents necessary for the tracing of the development and reproduction as found in representative cryptogams. In

ADVANCED PHYSICS

the desire is to develop the general laws of Physics and study their practical application.

Elocutionary Department.

MABEL G. SAWYER.

The natural mediums God has given us for the expression of thought are speech and gesture. It is right and proper, therefore,

that these mediums should be thoroughly cultivated and developed, so that we may be able to express our thoughts, or those of the author, in a clear, forcible and intelligent manner. Along with the acquisition of thought, or knowledge, should be cultivated the power to express it.

The object of this department is to enable students to comprehend, to appreciate and to communicate thought in the most natural and effective manner.

VOICE CULTURE.

The first thing essential for a good and pleasing style of reading is the proper cultivation of voice. A harsh tone of voice not only grates upon the sensitive ear, but is not susceptible to pleasant changes and modulations so necessary to the correct rendition of any selection. The gesture may be perfect, the expression of the face faultless, and the conception of the thought correct ; yet if the tones of the voice be harsh, unnatural, or weak, the force of the production is in a measure lost.

Daily drills, exercises especially adapted to the cultivation of the voice are given, embracing Breathing Exercises, Vocal Gymnastics, and Physical Culture ; the object in view being to develop power, flexibility, resonance and purity of tone.

ARTICULATION AND PRONUNCIATION.

Exercises in the elementary sounds of the language, together with difficult combinations, for the purpose of strengthening the organs of articulation, and giving a clear and distinct enunciation and a correct pronunciation, are practiced. Phonetic Analysis, Syllabication, Accent, etc., are features of our daily work.

GESTURE.

The first effort of the child to be understood is not through articulate speech, but by gesture. It is the universal language of all nations. It is the silent though no less powerful medium for the expression of thought. By gesture we reveal that which speech is powerless to express. By a wave of the hand we command, entreat, invite, repel, etc.

In treating this most important subject, we avoid mannerisms which tend toward artificiality, thus making the pupil unnatural, and detracting from the true merits of the selection. Our

CAMPUS.

FOUNTAIN ON CAMPUS.

aim is to teach the guiding principles, with extensive practice, so that the movements will be natural, easy and graceful.

Outline of Work.

FIRST TERM.

1. Cultivation of the voice. { (a) Breathing Exercises.
(b) Vocal Exercises.
(c) Calisthenics.
2. Articulation, { (a) Study of Elementary Sounds.
(b) Phonetic Analysis.
(c) Diacritical Marks.
(d) Pronunciation.
3. Daily Practice in Reading.

SECOND TERM.

1. Voice Culture continued.
Expression, { (a) Analysis of Selections.
(b) Modulations of the Voice.
Gesture, { (a) Position.
(b) Movements of the Body.
(c) Facial Expression.
Platform Recitations and Sight Reading.

THIRD TERM.

1. Advanced Reading & Recitations, { (a) Analysis of Shakesperian Selections and Reading one play.
(b) Humorous and Pathetic Readings and Recitations.
2. Practical Principles of Delsarte System.
3. Rhetorical, Platform and Sight Reading.

Drawing.

LOTTIE E. DAYTON.

We recognize that drawing is an invaluable element in general education, and are prepared to give it the attention its importance deserves.

The value of drawing cannot be overestimated on account of its numberless applications in every art and trade, and because it is an important factor in the training of the perceptive faculties.

The course covers twenty-four weeks, and comprises the following branches :

Free Hand and Instrumental Perspective, Mechanical Drawing, Elementary Design, Drawing from Natural Forms and Casts, Sketching, Clay Modeling, Color.

Classical Department.

R. M. SHERRARD, A. M.

ROSINA B. WEAVER, M. S.

R. E. OWENS, A. B.

W. G. ROBERTSON, A. B.

The number of students preparing for college has steadily increased during the last few years. Vassar, Wellesly, and some other colleges receive students upon our certificate.

Latin.

The "Roman" pronunciation is used.

In the Junior year three terms are spent on Harkness' First Year in Latin.

It is here the aim thoroughly to ground the student in the Latin forms and inflections, and in the general principles of Latin Syntax. It is desired that the student have a good knowledge of English before taking up this branch, since the idioms of the two languages are constantly compared.

By constant practice, oral and written, from English into Latin, and from Latin into English, familiarity with the Latin idiom and proficiency in translation are acquired.

In the Senior year the Helvetian War from Cæsar's Gallic War is read. Here, in addition to the literal and free translation of the text, there is constant drill in the use and force of the cases, of the moods and tenses, of the principles of indirect discourse, of the gerund and gerundive constructions, of the ablative absolute, in the derivation of words, and in the analysis of sentences.

The Scientific Course continues with one term on books II., III. and IV. of Cæsar, two terms on Virgil's *Æneid* (Books I.—VI.), two terms on the Orations of Cicero. In connection, Latin Composition is studied.

In reading poetry, sufficient attention is given to the laws of versification to enable the student to scan the poetry he reads.

Opportunity is also afforded the student of reading Latin beyond the regular courses.

Greek.

It is the aim not only to implant a thorough knowledge of the forms and principles of syntax, but also, by means of reading at sight and other exercises, to enable the student to use the language in a practical way. In this way the student comes to look upon Greek not as a "dead" language, made up of a mass of forms and rules, but as a legacy of a cultured people.

The reading of the Greek authors includes Xenophon's *Anabasis* and Homer's *Illiad*. If desired, other authors may be studied. In connection with these, the history and customs of the Greek people are taken up. Exercises in writing Greek are kept up by the use of Pearson's *Greek Prose Composition*.

College Preparatory Course.

Schedule.

FIRST YEAR.

FALL.	WINTER.	SPRING.
E Arithmetic	D Arithmetic	U. S. History
F Language	E Language	D Composition
E Geography	D Geography	D Grammar
{ Reading	A Latin	Cæsar (Bk. I.)
{ Spelling and Writing	Physiology	Elocution
B Latin		

SECOND YEAR.

C Composition	B Grammar	A Composition
C Algebra	B Algebra	A Algebra
Cæsar (Bks. II, III, IV.)	Virgil (2 Bks.)	Virgil (4 Bks.)
Greek or German	Greek or German	Anabasis (Bk. I.), or German

THIRD YEAR.

Rhetoric	Rhetoric	Literature
Geometry, Plane	Geometry, Plane	Trigonometry and Surveying
Anabasis or German	Anabasis and Greek Prose or German	Iliad (Bks. I, II, III), or German
Cicero (4 orat.)	Cicero and Prose (2 orat.)	Sallust and Nepos
Government	General History	General History

Modern Language Department.

ELIZABETH G. PEABODY.

The object of this Department is to fit students for College Entrance; to enable them to make practical use of the spoken and written language, and to open to them the richness of the German Literature and the grace and polish of the French.

German.

FIRST YEAR.

First Term.

Courses.

Texts.

- I. Grammar—Joynes and Meissner.
- II. Sight Reading—Joynes and Meissner.

III. Conversation—Schmidt's Lessons.

IV. Easy prose composition—Schmidt's Lessons.

V. Memorizing of Poetry.

VI. Easy stories from Guerber's "Marchen und Erzählungen" are read to the class at least once a week, for the better understanding of the spoken language.

Second Term.

I., II., III., IV., V., VI. are continued. Same as above.

VII. Critical reading of Sturm's Immensee and other works as time permits.

Third Term.

I. Critical reading of Meissner's "Aus Meiner Welt"; Schiller's "Neffe als Onkel"; Tales from Hauff.

Course II., III., IV., V., VI. continued as above.

SECOND YEAR.

First Term.

1. Critical study of Lessing's "Minna von Barnhelm," Schiller's "Jungfrau von Orleans"; and such of Grimm's "Marchen" as leads up to simple talks on the "Nibelungen Lied" and the Wagner Operas.

2. Conversation, Prose Composition, and Memorizing of Poetry.

Second Term.

1. Critical study of Goethe's "Hermann und Dorethea"; Schiller's "Lied von der Glocke"; Heyse's "L'Arrabbiata."

2. Conversation, Prose Composition, and Memorizing of Poetry.

Third Terms.

1. Reading of Scheffel's Ekkehard.

2. Conversation, Prose Composition, and Memorizing of Poetry.

German is the language of the class-room.

German Script is taught. The German table in the dining-room affords to boarders a further opportunity of acquiring fluency in speaking the language.

French

ONE YEAR.

First Term.

- I. Grammar—Grandgent.
- II. Lessons in Pronunciation—Grandgent.
- III. Livre de Lecture et Conversation—C. Fontaine.
- IV. Memorizing of Poetry and Fables ; Dictation Exercises.
- V. Synopsis of French Verbs.

Second Term.

- I. Reading from Super's French Reader and Histoires Choiesies, Vols. 1, 2, 3, 4, 5, 6—Belfond.
- II. Composition, Conversation, Dictation.
- III. Memorizing of Poetry and Fables.

Third Term.

- I. French Syntax—F. Storr.
- II. Reading of Halévy's "L'Abbe Constantin."
- III. Conversation, Dictation, Memorizing of Poetry.

French is the language of the class-room. Students will acquire a pure French pronunciation ; the ability to read moderately difficult French, and to speak the language with some fluency. They will gain a knowledge of many of the best French authors.

Commercial Department.

SHERMAN L. LOWREY.

Successful men and women of every calling in life recognize the advantages of a thorough business education. To those who intend pursuing an active business career, this is absolutely necessary ; and to any one it is a valuable aid. For this reason several years ago the Commercial Department was added to our School. Its object is to instruct young men and women in the laws, customs and forms of business ; to cultivate in them habits of neatness, accuracy and thoroughness of work ; to familiarize them with practical business problems, and in every way possible to prepare them for successful business lives. The teachers are of the regular School Faculty, and are specialists in their several lines.

Business Practice.

Part of each term is spent in "Business Practice." The business of a city, on a small scale, is here carried on, with its stores, offices and banks. Each student enters business with a certain capital; buys and sells; draws drafts and checks; writes receipts, notes and other business papers, and at last retires from business with a handsome profit or perhaps insolvent, as the case may be. The benefit of this work is great, in that it combines theory with practice, and thus fixes the principles of book-keeping.

In addition to the advantages of the Department, Commercial students have all the privileges of the large library and reading-room, literary societies and debating clubs, athletic association, Christian Association, socials, lectures and other entertainments of the school.

The time required to complete the Commercial Course varies with the ability, previous training and application of the student. As the instruction is largely individual, each student may progress as fast as he is able, and finish the work as soon as possible.

Many students, on entering the school, pass a special examination in Spelling, Grammar, Reading, Geography, History, and Composition, and if their examination is satisfactory, are not required to take these studies in class. High school graduates are given credit, in this Department, for the above-named studies without examination.

Having finished the prescribed course and passed the examinations satisfactorily, the student is granted a diploma. The charge for the diploma is one dollar.

Short Hand and Type-Writing.

No avenue of employment for ladies is so fascinating, so certain in its results, or so well compensated as that of the Stenographer and Typewriter. It has opened up a field of labor more remunerative than ordinary avocations, and is lighter, less fatiguing, and better adapted for them than any other.

The Course of Study

consists of Shorthand, Typewriting, Spelling, Writing, Business Correspondence, Composition, Letter Press Copying, Mimeograph

ing, and Office Work. These branches must all be completed to secure a diploma and the recommendation of the school for a position.

The Tuition

in this Department is the same per term as in the other departments of the school.

Course of Study.

FIRST TERM.

Writing—position, movement, exercises, practice.

Arithmetic—fundamental principles, fractions, denominate numbers.

Spelling—orthography, orthoepy, diacritical marking.

Reading—articulation, voice culture, reading.

F Geography—from beginning to South America.

E History—from beginning to Civil War.

Book-keeping—theory, single entry, business practice.

SECOND TERM.

Writing—movement exercises and business writing.

Arithmetic—interest, percentage.

D Grammar—language lessons, practical applications.

D Composition—sentences, paragraphing, punctuation, letter-writing.

E Geography—South America to end.

D History—Civil War to end.

Book-keeping—wholesale, lumbering, actual business.

THIRD TERM.

Writing—last fifty advance lessons.

Arithmetic—business practice, rapid calculation.

Commercial Law and Political Economy.

Letter Writing—business letters, correspondence.

Book-keeping—insurance, commission, banking.

THE GROVE.

GRAND STAND AND SECTION OF ATHLETIC FIELD.

Athletic Department.

MABEL G. SAWYER.

HARRY PHYTHON.

1. A Gymnasium, thoroughly equipped with all the modern appliances, is in charge of a competent instructor in Physical Culture, and will be open at different parts of the day to each of the sexes.

2. Parts of our large campus are given up to field sports. A bicycle track, croquet grounds, six excellent tennis courts, a football field, and a baseball diamond afford excellent inducements to exercise out of doors.

Lectures.

It has become a part of the settled policy of the institution to give to its pupils the opportunity to hear in their own halls, lecturers of eminent ability on subjects supplementary to the regular work, or of universal interest.

Government.

Self-government is the true type of government. It is the only kind capable of developing that high character which the teacher should possess. Hence the constant aim of this school is to develop self control, and to cultivate such a sentiment as will render school discipline unnecessary.

There are but few regulations ; but that all may live happily in so large a community, it is necessary that there be some.

Buildings, Location, Grounds, Etc.

Buildings.

The main building occupied by the Indiana Normal School is one of the best arranged buildings for school purposes in this or any other state.

Situated on a gentle eminence, with a beautiful outlook and

in the midst of delightful grounds, it includes a liberal share of those arrangements which go to render student life pleasant and attractive. The entire building is heated by steam and lighted by electricity.

Every floor is supplied with an abundance of hot and cold water, bath rooms, lavatories and water closets of the most approved patterns.

Danger in case of fire is reduced to a minimum by our method of heating and lighting, as well as by the ample arrangements for extinguishing a fire should one occur ; also by fire escapes abundantly provided for each floor.

In brief, this immense building is planned and furnished throughout for the convenience, safety and success of its occupants.

Each room has a suit of oak furniture. It comprises a bedstead, a bureau, a washstand, two chairs, a study table and a neat case of book shelves. The rooms are all carpeted. The steam laundry does very fine work. All cooking is done by steam. In short, the building is fitted up with the most modern machinery and appliances.

A fine passenger elevator takes away all objections to the fourth floor rooms, and really makes them the most desirable.

A brick dormitory for young men occupies a beautiful situation upon the southern edge of the athletic field. It is one hundred and fifty feet by forty, three stories high, and has a large porch in front. The rooms are commodious. Each is furnished with two single beds. No expense has been spared in the arrangements for heating and ventilation. Every room is thoroughly ventilated without the opening of window or door, thus securing to the occupants an abundance of pure air without exposure to cold drafts.

A beautiful model school of eight rooms, with play rooms in the basement for stormy weather, adorns the campus near the northern entrance. This building is lighted, heated, ventilated and furnished in the most approved manner.

Location.

The character and location of Indiana are such as to render it especially desirable as a site for a Normal School.

Near the mountains, having an elevation of thirteen hundred

and fifty feet above the sea, it is entirely removed from all malaria, and has an atmosphere of great purity and healthfulness. The health record of the school, as a consequence, has always been remarkably good.

The moral and intellectual character of the citizens, an item of no small importance to students away from home and among strangers, is of a high order, as has been shown in an unmistakable manner by the creation and liberal support of a State Normal School.

Indiana is almost entirely free from tramps and other rough characters, so abundant in railroad towns.

But Indiana, with its high moral tone, its sobriety, its beautiful scenery and its salubrious climate, is far from being isolated or inconvenient of access.

Railroad Accommodations.

The Indiana Branch connects at Blairsville with the West Penn, and at Blairsville Intersection with the Pennsylvania Central, and as a consequence, Indiana is easily reached from any portion of the State. The School is within five minutes' walk of the station; and at the opening of each term, all incoming trains stop at the school grounds.

There are three mails each way every day, and telegraphic and telephonic communications with all the leading cities and towns.

Taken all in all, it would be hard to find a town safer, or more convenient for the citizens of Western Pennsylvania.

Grounds.

The grounds contain about twenty-three acres, including a beautiful grove. A competent gardner is employed to keep the grounds about the buildings in order. The buildings are surrounded by beautiful beds of foliage plants and blooming flowers.

Expenses at Indiana.

There is an impression in the minds of some that Indiana is

an expensive school. Those who are preparing for attendance at some school, but who have not fully made up their minds as to the school of their choice, sometimes say :

“We would prefer to go to Indiana, but it costs so much that we cannot afford it.”

A comparison of our rates with those of rival schools will show very little difference.

Under the impression that it would be the fairest course to pursue, and the one that would give the greatest degree of satisfaction to our patrons, we have been accustomed to aggregate all expenses, except those for books and stationery, thus leaving no extra bills for room rent, washing, light, fuel, etc., to be sent when unexpected.

Those who desire to practice still further economy will find opportunity for self-boardings or club-boardings at as low rates as can be obtained anywhere.

STATEMENT OF EXPENSES.

	Full Year	Fall Term 15 Weeks.	Winter Term 12 Weeks.	Spring Term 14 Weeks.	Less than a Term pr. Week.
BOARDING STUDENTS.					
For tuition, board, furnished room light, heat and washing .	\$200 00	\$75 00	\$60 00	\$70 00	\$5 25
Reduced by State aid to . . .	179 50	67 50	54 00	63 00	4 75
DAY STUDENTS.					
For tuition	50 00	13 50	17 00	19 00	1 50
Reduced by State aid to . . .	29 50	14 00	11 00	12 00	1 00
EXTRAS.					
For Piano, Organ, Voice Culture or Private Lessons in Harmony, or in Elocution for two lessons per week		15 00	12 00	14 00	1 20
For one lesson per week . . .		9 00	7 20	8 40	60
For use of instruments for two practice periods per day . .		2 00	2 00	2 00	
Typewriting		5 00	4 00	4 50	
Short-Hand		10 00	8 00	9 00	

Vacation Board \$3.75
 Transient Board 75 cents a day, or 4.00

Deductions.

For absence two consecutive weeks or more, on account of personal sickness, one-half the usual charge for board and tuition.

No deduction is made for absence the first two or last two weeks of the term, except by previous arrangement with the Principal.

Boarders paying by the term and who have been in attendance for three consecutive terms will, on making their last payment, receive a reduction of five dollars, thus bringing their expenses down to \$200 per year. Day students will receive a reduction of seven dollars, making tuition \$50 per year.

State appropriations are made to Normal students and Normal graduates in accordance with the following statute :

1. "For each student over seventeen years of age who shall sign a written declaration, in the form prescribed by the Superintendent of Public Instruction, that said student intends to teach in the common schools of the State, there shall be paid the sum of fifty cents per week towards the expense of said student :

"*Provided*, That each student in a Normal School, drawing an allowance from the State, must receive regular instruction in the science and art of teaching in a special class devoted to that object, for the whole time such allowance is drawn." Attendance for at least twelve consecutive weeks is necessary. OWING TO A DEFICIENCY IN THE STATE APPROPRIATION, THE FEE OF \$50 CANNOT BE PAID IN 1900.

In case of a deficiency in the amount appropriated by the Legislature for State aid to students, each student will receive his proportionate share of the appropriation.

Payment of Bills.

Bills for board and tuition are payable, one-half at the opening and the remainder at the middle of the term.

Payments must be made, or satisfactorily provided for before students are assigned to classes.

Students desiring to leave school before the close of the term must report to the principal and settle any unpaid accounts ; and in all cases bills for board and tuition will be made out for the

entire term unless notice of leaving is given at the time of leaving, or, in case this is impossible, immediately thereafter.

All bills are payable to the Principal.

Outfit, Rooms, Washing.

Students are expected to provide themselves with towels, table napkins, soap and other needful toilet articles.

Since in case of sickness, meals are sent to rooms, each student should provide himself with knife, fork, and spoon, as silver will not be sent out of the dining-room.

Rooms.—Students in actual attendance at the close of one term, are entitled to preference in the choice of rooms for the next term. All other students are entitled to choice of rooms in the order of the reception of their application.

No rooms, selected by or for the students, will be held for them beyond the first Thursday of the term, except upon special agreement to that effect, and charge will in all cases be made for rooms thus held.

Each room is intended to accommodate two boarders, and the scale of prices given above is arranged accordingly. An exception is made in the case of a few of the smaller rooms, but usually where a student occupies a room alone, an extra charge will be made, and must be prepaid before taking the room.

Washing.—Each student is entitled to the washing of ten plain pieces in addition to the towels and napkins.

All articles sent to the laundry must be plainly marked with the name of the owner in some indelible form.

Text Books.

Stationery and text-books used in the Institution can be purchased at the book room in the building at regular prices ; or the text-books can be rented at reasonable rates by those who do not wish to purchase. The following is the list in use :

The Bible.
Geography—Redway.
Physical Geography—Warren.

Arithmetic—Milnes' and Brooks'.
Algebra—Sensenigs, Bradbury & Emery's, (College) Wells.

History of the United States—Montgomery.	Geometry—Phillips & Fisher.
General History—Myers.	Solid Geometry—Bowser.
Civil Government—Pennsylvania Citizen and Thorpe's.	Trigonometry—Bowser.
English Grammar—Patterson, Welsh.	Surveying—Wentworth.
Composition—Lewis.	Analytical Geometry—Nichols.
Rhetoric—Genung.	Calculus—Hardy.
Outline of Rhetoric—Genung.	Mechanics—Olmstead.
Rhetorical Analysis—Genung.	Astronomy—Young.
First Year in Latin—Harkness.	Natural Philosophy—Avery.
Latin Grammar—Allen & Greenough.	Chemistry—Shepard.
Cæsar's Commentaries—Lowe & Ewing.	Physiology—Blaisdell.
Virgil—Greenough and Kittridge.	Botany—Gray.
Cicero—Allen & Greenough.	Plant Dissection—Arthur, Brown & Coulter.
Tacitus and Horace—Chase & Stewart.	Mineral Tables—Foye.
Latin Prose—Dodge & Tuttle.	Zoology—Orton.
Greek Grammar—Goodwin.	Choral Union—Palmer.
First Greek Book—Gleason & Atherton.	Educational Reformers—Quick.
Anabasis—Kelsey.	History of Education—Painter.
Iliad, Seymour.	Philosophy of Education—Rosenkranz.
Greek Prose—Pearson.	Psychology—Halleck's & McLellan's.
German Grammar—Joynes-Meissner.	School Management—White.
German Reader—Joynes.	Logic—Hyslop.
	Moral Science—Alexander.
	Book-keeping—Goodyear.
	Commercial Law—Cahart.

Books of Reference.

While the student will find many books of reference here, still it is advisable for him to bring such as he may have, that he may make personal and daily use of them. The habit of such use is of incalculable importance, and school life should ever minister to the formation of such habits as will lead to a successful life. Bring your books with you; place them where you can conveniently use them, and by their use form a habit, the value of which you can never overestimate.

Library and Reading Room.

A good reference library is accessible every day to all students. In this are found the leading encyclopedias, dictionaries and other standard reference books, historical charts, maps and other conveniences, so essential to successful student life.

There is also a large library of choice works of history, biography and literature free to all students.

It is not the aim to mass books merely for the sake of making a large library ; but we do aim to have every usable book and periodical.

The addition to the library during the year will aggregate three hundred volumes.

In connection with the library is a reading room, supplied with newspapers and periodicals as follows :

Forum	Popular Educator
Public Opinion,	Journal of Education (Boston),
Judge,	Youth's Companion,
Scientific American and Supplement,	N. Y. Independent,

Societies.

Two literary societies, the "Erodelphian" and "Huygenian" are well sustained, each having a private room.

These societies, which are in excellent working condition, have become marked features of school life at Indiana.

Religious Influences.

Family worship is held daily. All students are required to attend church on Sabbath morning. The Y. M. C. A. and the Y. W. C. A. aid in the religious culture of all whose homes are in the Institution. They include a large proportion of the students. These associations have charge of the Thursday evening prayer-meetings, and hold a joint meeting Sabbath evening, and an endeavor is made to promote Sabbath observance.

Students are thus encouraged to become Christian workers, and school life is made to minister to the elevation of Christian life.

Besides these associations, there are various others of a practical type and in a highly prosperous condition.

The Churches represented by congregations at Indiana are Methodist Episcopal, Presbyterian, United Presbyterian, Catholic, Lutheran, Baptist, Episcopal and German Lutheran.

Advice to Prospective Students.

Come Early.

Success demands that you shall be here early. Tardiness in the commencement of a term, or irregularity of attendance after the commencement has been made, are very serious hindrances to success. Be here and ready for work on the very first day and very first hour of the term.

Give Yourself Time for Thorough Work.

It often happens that an ambitious young man or woman, limited in means, and desirous of commencing life's active labors as soon as possible, determines to try to do two years' work in one, or that of three in two.

Such a course is scarcely ever advisable. One essential element in the teachers preparation is time. Solid attainment is never a mushroom growth. 'Two years' work demands two years in which to do it well; and unless work is well done, the result will prove a source of regret through many years of mistakes, which might have been avoided had more thorough preparation been made. If you need more than a year for your work, and have only the means at command for one year's expenses at school, come for the year, and then by remaining out of school for a time, make it possible to return and complete your course. It is not an absolute necessity that you graduate at a certain time; it is absolutely essential to your true success that you make thorough preparation.

Make Few if Any Visits Away From School.

Success demands concentration of thought. This is prevented by frequent visits at home or elsewhere, and usually time thus spent subtracts materially from the progress of the student.

A High Standard.

The Indiana Normal School proposes to maintain a high standard of excellence, both as to scholarship and as to attainment in Model School work.

Our inquiry is, and will remain, not how many can we graduate, but how many, and who, are thoroughly prepared for graduation.

For the sake of those who shall employ our teachers, and for the sake of the teachers themselves, we desire to make our diplomas valuable and to preserve to them their value.

Students can readily appreciate the increased value which will thus come to them, and we trust they will also appreciate the fact that they must themselves contribute to so desirable an end.
